

Deposition - DIANA HAMILTON BOWRON, March 24, 1964, 6 H 134-9.

Questioning by Arlen Specter, Asst. Counsel, Warren Commission

Miss Bowron is an emergency room nurse at Parkland Hospital. She took a stretcher to the emergency entrance and helped with Kennedy throughout. On p.136 she is asked if she saw a wound any place on the President's body. She replied negatively. No one could, for his clothes covered the other wound, as Specter knew. Four newspaper store^{up}s are introduced as exhibits. They are not printed here, nor is it possible to tell if or where they are printed.
